

The market's most modern dumptruck. The new Hydrema 912D has a host of features designed to improve operator safety and output. The proven articulated chassis is designed to keep the nett weight low and give excellent cross country performance while still carrying a high payload. The new cab offers the operator the highest levels of comfort and the new tier 3 engine will keep the 912D ahead of the field.

Dynamic design

A lot of time and effort has gone into the design of the 912D to keep it ahead of the market in terms of quality and function. Industrial designers have been employed to attend to every detail from the eight working lights to the built in tool boxes and soft touch interior.

Technical Specifications	912D/912D MT
Carrying capacity	10,0 t
Nett weight	6,9/7,4 t
Total weight	16,8/17,4 t
Body capacity	5,6 m ³
Engine power	96 kW
Turning radius	6,1 m
Max. height, transport	2775 mm
Width over tyres, Std/Opt	2470/2200 mm
